

KLOVE radio serves my local community as an outreach program for churches and other helping-tupe programs.

If KLOVE were to be displaced by an LPFM broadcaster which provided other programming, there would possibly be no other Christian radio station available to me and thousands of others.

The service provided to the community by KLOVE is in the public interest because the station is operated with donations only and provides local information and informational assistance to any in need. Also, it is important to me that KLOVE staff prays for my needs four times a day. I appreciate that service. KLOVE is a station that I am proud to allow my child to listen to and which I am proud to donate to monthly.
